Care Instructions

Ensure the longevity and appearance of your ELLISON STUDIOS. furniture products that contain marble, travertine, or powder-coated finishes on metal with these care instructions:

Regular Cleaning: For Stone: Clean marble and travertine surfaces regularly with a damp, soft cloth. Use a pH-neutral cleaner specifically designed for stone surfaces. Avoid using acidic or abrasive cleaners, which can etch and damage the stone. Metal: Clean powder-coated metal surfaces with a mild soap solution and water. Use a soft cloth or sponge to avoid scratching the finish. Rinse thoroughly and dry with a clean cloth to prevent water spots.

Spills and Stains: Immediately blot spills with a clean, dry cloth to prevent staining. Avoid rubbing, as this can spread the spill. It is always recommended to use the cleaning products available in the ELLISON STUDIOS. online store.

Sealing: Seal marble and travertine surfaces periodically to protect against staining and etching. Follow the sealer manufacturer's guidelines for application frequency. It is always recommended to use the sealants available in the ELLISON STUDIOS. online store.

Avoid Direct Heat and Heavy Objects: Do not place hot objects directly on marble or travertine surfaces, as extreme heat can cause damage. Use trivets or coasters to protect the stone. Avoid placing heavy objects on the edges, which can lead to chipping.

Following these simple steps and guidelines will help to ensure the longevity of your ELLISON STUDIOS. product.
