

Hendrix Side Table

Black Oak

Description

The bold base of the Hendrix Side Table combined with the beautiful black oak top combine to create a stunning organic shaped table.

Features

- + The Hendrix Side Table has an ultra-modern, sleek design with a frame that gives it an industrial edge.
- + The black stained oak with wood grains has a beautiful textural contrast against the smooth, matt black powdercoated metal that will remain robust for a long period.
- + This piece is well suited for any room in a home.

Product Care

Oak is a natural product and therefore each item is unique and will vary in pattern, colour, grain, and markings.

Regularly dust surfaces by wiping with a dry, soft cloth. If spills occur, blot immediately and wipe with a damp cloth using water only. We recommend avoiding the use of cleaners as they have chemicals that may tarnish or damage the finish. Please be sure to use a coaster or placemat when necessary to protect the finish from direct heat.

Direct sunlight can harm your items particularly prolonged exposure. Timber products can also begin to warp. Be mindful of direct sunlight when placing your products within your home and consider use of blinds and curtains.
